

## Model : SPP-MTDVUE120

### 120m DVI KVM Extender

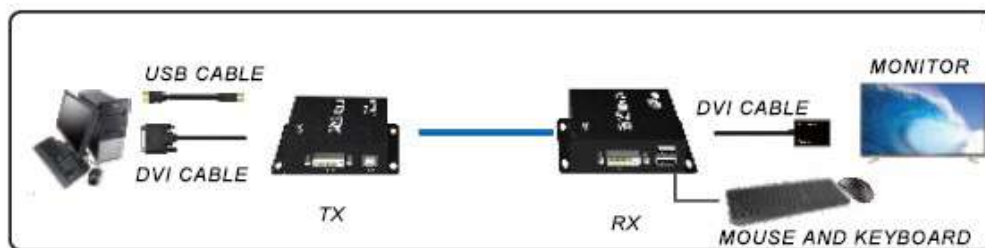

- Transmission distance up to 120m over single lan cable
- Resolution up to 1080p@60Hz
- Bandwidth supports 165MHz
- 8KV ESD protection
- Support adjustment and signal enhance processing
- Support USB keyboard and mouse
- Support cascade, can connect up to 253pcs via router or switcher

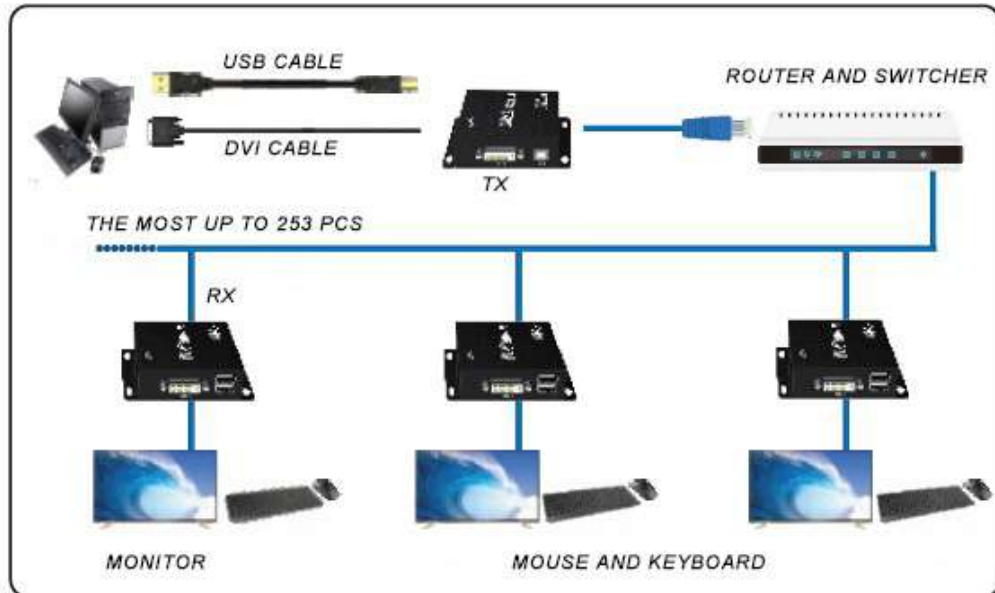

### Specifications

|                               |  |
|-------------------------------|--|
| Protocol supported            | DVI1.0, HDCP1.2                          |
| Bandwidth                     | 165MHz, and full digital                 |
| Interface bandwidth           | total bandwidth:6.75Gbps                 |
| Resolution                    | 1920 x 1080p@60Hz                        |
| Interface                     | DVI                                      |
| Resistance                    | 100Ω                                     |
| Input and output DVI distance | 5m when the 1920 x 1080p@60Hz resolution |
| Interface                     | RJ45                                     |
| Transmission distance         | can up to 120m when use cat6             |
| Power                         | DV5V/ 1A                                 |
| Power consumption             | Max. 5W                                  |
| Operation Temperature         | 5 to 70°C                                |
| Humidity                      | 5% to 90%                                |
