

Model : SPP-MTHE50

50m HDMI Extender

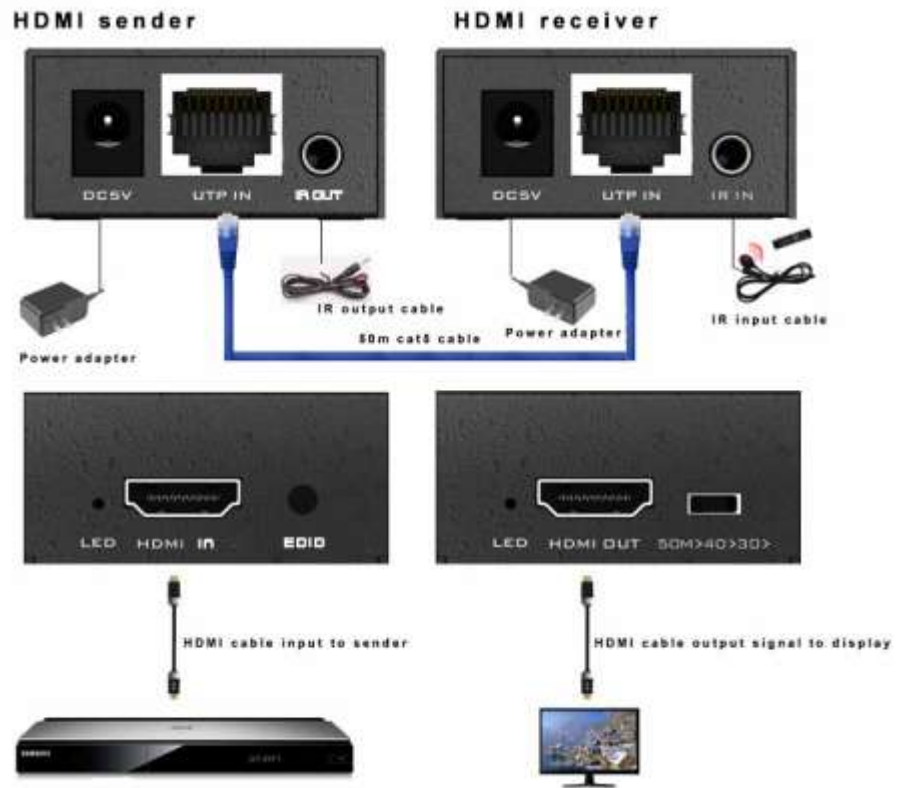

- Gain adjustment(EQ) for different lengths:
First gear: within 30m, Second gear: 30-40m
Third gear: 40-50m
- CAT-5e/6 cable can replace the HDMI cable for long distance transmission
- Use CAT-5e/6 cable to achieve transmission distance of 50 meters and a maximum distance of 50 meters
- Comply with IEEE-568B standard
- Supports the highest frequency resolution 1080p
- Support 165Hz / 1.65Gbps
- Support 8 bits per frame rate (total frame rate 24 bits) dark
- Supports uncompressed 2-frame audio, such as LPCM

Specifications :

Input video signal	0.5-1.0 v P-P, 0.5-1.0v P-P
HDMI resolution	1080p/ 1080i/ 720p/ 576p/ 576i/ 480p/ 480i
Transmission distance	Cat-5e 40 meters, 1080p
Video amplification bandwidth	1.65 Gbps/ 165Hz
Vertical frequency range	50/ 60Hz
Operating temperature	0°C to +70°C
Use humidity	10% to 85% RH(no condensation)
Infrared support	38KHz
Power	DC 5V
